

# TOUGHTTEK® M680

Repair Mortar and Fireproofing Sprayer

## BIG PERFORMANCE IN A SMALL PACKAGE!

When it comes to applying mortar to a surface, nothing is faster than spraying! With the M680a, you can finish your jobs 2X faster than troweling, allowing you to save labor costs, bid more jobs, bid larger jobs and maximize the efficiency of your crew. With multiple configurations available, the M680a is the best solution to spray a wide variety of repair mortars and cementitious fireproofing.

### **Perfect for any jobsite!**

Position the material and pump where you need it

### **Spray Directly to the Surface!**

A perfect blend of high-performance, material capability and versatility to do it all!

### **Lower Costs = More Profit!**

Maximize productivity so you can do more jobs

## BENEFITS YOU'LL APPRECIATE!

**High-performance** — Pump up to 40 bags an hour to get the job done faster

**Lightweight and portable** — Only weighing 250 lb it's smaller and lighter than comparable high performance pumps

**Less downtime** — Proven Quick-Access Piston Pump lasts longer and offers a lower cost of ownership than rotor stator pumps

**Easy maintenance** — Tool-less disassembly of outlet manifold and pump components to keep your pump up and running from one job to another

# TOUGHTTEK M680

Repair Mortar and Fireproofing Sprayer

## PROVEN PISTON PUMP PERFORMANCE

Graco's double-displacement piston pump technology offers unmatched performance while delivering long life and lower cost of ownership than rotor stator systems. Oversized clearances ensure minimal pressure drop and trouble-free performance.

### Air Motor & Controls

- Jobsite proven 3400 air motor offers high performance in a small package
- Integrated Air Filter and Regulator for trouble free operation
- Easy to adjust flow control for ultimate control

### Durable Hopper

- 10 gallon heavy-duty stainless steel hopper with straight sides for easy cleaning
- Optional 25 gal (95 l) hopper kit allows for maximum productivity with less refills

### Choose Your Pump Style

- M680a: stainless steel pump designed for epoxy-based mortars and non-stick coatings
- M680a CS: comes standard with larger diameter pump outlet and hoses. Best suited for water based repair mortar and fireproofing

### Compact & Portable

- Minimize your hose lengths/hassles by bringing the sprayer closer to your work
- Easy to transport

### Onboard Tool Box

- For convenient storage of applicator tips and spare parts

### Durable Quick Access Piston-Pump

- Heavy-duty steel construction for long life and everyday performance
- Oversized inlet and internal passages for trouble-free pumping
- Quick-access design for fast and easy maintenance
