HYDROFUT 1200 SSP / REF.30895

PISTON PUMP

HYDROFUT 1200 is configured for interior and exterior large painting jobs. It offers a continuous product flow-rate for a uniform coating and a regular atomization. It draws the paint directly from paint barrels.

Compact and equipped with a removable pump, it can take place in the back of a truck with barrels or bags. Its ergonomic shape and its motorized drum with 80 m of hose allows it to work directly from the truck.

APPLICATIONS

For large paint and film coating jobs: thin-film facade products, waterproof coatings, cool roof paint, etc.
